and 54.307 of this chapter to determine the per-line amount of forward-looking support for that wire center:

- (4) The per-line amount of support for each wire center pursuant to paragraph (b)(3) of this section shall be multiplied by the number of lines served by a non-rural incumbent local exchange carrier in that wire center, or by an eligible telecommunications carrier in that wire center, as reported pursuant to §§ 36.611,36.612, and 54.307 of this chapter, to determine the amount of forward-looking support to be provided to that carrier.
- (5) The total amount of support calculated for each wire center pursuant to paragraph (b)(4) of this section shall be divided by the number of lines in the wire center to determine the per-line amount of forward-looking support for that wire center;
- (6) The per-line amount of support for a wire center calculated pursuant to paragraph (b)(5) of the section shall be multiplied by the number of lines served by a non-rural incumbent local exchange carrier in that wire center, or by an eligible telecommunications carrier in that wire center, to determine the amount of forward-looking support to be provided to that carrier.
- (c) Petition for waiver. Pursuant to section 1.3 of this chapter, any State may file a petition for waiver of paragraph (b) of this section, asking the Commission to distribute support calculated pursuant to paragraph (a) of this section to a geographic area different than the wire center. Such petition must contain a description of the particular geographic level to which the State desires support to be distributed, and an explanation of how waiver of paragraph (b) of this section will further the preservation and advancement of universal service within the State.
- (d) Support after December 31, 2011. Beginning January 1, 2012, no carrier shall receive support under this rule.

[64 FR 67431, Dec. 1, 1999, as amended at 65 FR 26516, May 8, 2000; 68 FR 69626, Dec. 15, 2003; 76 FR 73872, Nov. 29, 2011]

## §54.312 Connect America Fund for Price Cap Territories—Phase I.

(a) Frozen High-Cost Support. Beginning January 1, 2012, each price cap local exchange carrier and rate-of-re-

- turn carrier affiliated with a price cap local exchange carrier will have a 'baseline support amount'' equal to its total 2011 support in a given study area, or an amount equal to \$3,000 times the number of reported lines for 2011, whichever is lower. For purposes of this section, price cap carriers are defined pursuant to §61.3(aa) of this chapter and affiliated companies are determined by §32.9000 of this chapter. Each price cap local exchange carrier and rate-of-return carrier affiliated with a price cap local exchange carrier will have a "monthly baseline support amount" equal to its baseline support amount divided by twelve. Beginning January 1, 2012, on a monthly basis, eligible carriers will receive their monthly baseline support amount.
- (1) "Total 2011 support" is the amount of support disbursed to a price cap local exchange carrier or rate-of-return carrier affiliated with a price cap local exchange carrier for 2011, without regard to prior period adjustments related to years other than 2011 and as determined by USAC on January 31, 2012.
- (2) For the purpose of calculating the \$3,000 per line limit, the average of lines reported by a price cap local exchange carrier or rate-of-return carrier affiliated with a price cap local exchange carrier pursuant to line count filings required for December 31, 2010, and December 31, 2011 shall be used.
- (3) A carrier receiving frozen high cost support under this rule shall be deemed to be receiving Interstate Access Support and Interstate Common Line Support equal to the amount of support the carrier to which the carrier was eligible under those mechanisms in 2011.
- (b) Incremental Support. Beginning January 1, 2012, support in addition to baseline support defined in paragraph (a) of this section will be available for certain price cap local exchange carriers and rate-of-return carriers affiliated with price cap local exchange carriers as follows.
- (1) For each carrier for which the Wireline Competition Bureau determines that it has appropriate data or for which it determines that it can make reasonable estimates, the Bureau will determine an average per-location

## §54.313

cost for each wire center using a simplified cost-estimation function derived from the Commission's cost model. Incremental support will be based on the wire centers for which the estimated per-location cost exceeds the funding threshold. The funding threshold will be determined by calculating which funding threshold would allocate all available incremental support, if each carrier that would be offered incremental support were to accept it.

(2) An eligible telecommunications carrier accepting incremental support must deploy broadband to a number of unserved locations, as shown as unserved by fixed broadband on the then-current version of the National Broadband Map, equal to the amount of incremental support it accepts divided by \$775.

(3) A carrier may elect to accept or decline incremental support. A holding company may do so on a holding-company basis on behalf of its operating companies that are eligible telecommunications carriers, whose eligibility for incremental support, for these purposes, shall be considered on an aggregated basis. A carrier must provide notice to the Commission, relevant state commissions, and any affected Tribal government, stating the amount of incremental support it wishes to accept and identifying the areas by wire center and census block in which the designated eligible telecommunications carrier will deploy broadband to meet its deployment obligation, or stating that it declines incremental support. Such notification must be made within 90 days of being notified of any incremental support for which it would be eligible. Along with its notification, a carrier accepting incremental support must also submit a certification that the locations to be served to satisfy the deployment obligation are not shown as served by fixed broadband provided by any entity other than the certifying entity or its affiliate on the then-current version of the National Broadband Map; that, to the best of the carrier's knowledge, the locations are, in fact, unserved by fixed broadband; that the carrier's current capital improvement plan did not already include plans to complete broadband deployment within the next

three years to the locations to be counted to satisfy the deployment obligation; and that incremental support will not be used to satisfy any merger commitment or similar regulatory obligation.

(4) An eligible telecommunications carrier must complete deployment of broadband to two-thirds of the required number of locations within two years of providing notification of acceptance of funding, and must complete deployment to all required locations within three years. To satisfy its deployment obligation, the eligible telecommunications carrier must offer broadband service to such locations of at least 4 Mbps downstream and 1 Mbps upstream, with latency sufficiently low to enable the use of real-time communications, including Voice over Internet Protocol, and with usage caps, if any, that are reasonably comparable to comparable offerings in urban areas.

[76 FR 73872, Nov. 29, 2011, as amended at 77 FR 31536, May 29, 2012]

## §54.313 Annual reporting requirements for high-cost recipients.

- (a) Any recipient of high-cost support shall provide:
- (1) A progress report on its five-year service quality improvement plan pursuant to §54.202(a), including maps detailing its progress towards meeting its plan targets, an explanation of how much universal service support was received and how it was used to improve service quality, coverage, or capacity, and an explanation regarding any network improvement targets that have not been fulfilled in the prior calendar year. The information shall be submitted at the wire center level or census block as appropriate;
- (2) Detailed information on any outage in the prior calendar year, as that term is defined in 47 CFR 4.5, of at least 30 minutes in duration for each service area in which an eligible telecommunications carrier is designated for any facilities it owns, operates, leases, or otherwise utilizes that potentially affect
- (i) At least ten percent of the end users served in a designated service area: or
- (ii) A 911 special facility, as defined in 47 CFR 4.5(e).
